All 1965 Mustang's were equipped with the same suspension, including the GT mustang. The front suspension consisted of an angle-poised ball-joint type suspension with coil springs mounted on a pair of upper arms. The lower arms were strut-stabilized arms. Finally, each 1965 Mustang was equipped with a rubber-bushed ride stabilizer bar, sometimes referred to as a sway bar. The rear suspension ...

Unveiled right after the so-called "1964½" run morphed into the traditional 1965 model year, the even sportier 2+2 fastback pushed the Mustang's body count to three, joining the carryover coupe and convertible. Another choice offered in all three shapes, the Mustang GT, debuted in April 1965 to help mark the first birthday of a new genre called the "pony car". Various details set a ...

After I finish the partial restoration, according to that guide, the Condition rating should go up to a #3 at least. And the value raised to \$9,800. Interesting. Of course this is all subjective, I know. If I was to sell my car, I will ask for more than that, based on all the money I've spent (and I've got all the receipts!).
