Luke Dixon argues the case for urban beekeeping and then tells the reader everything they need to know about how to do it. From siting hives and reassuring the neighbours, to combating interference from wind, artificial light and predators, this is a one-stop reference to take the urban beekeeper from set-up to first honey harvest.

[Luke Dixon \(Author of Keeping Bees in Towns and Cities\)](#)

The bees, they're gone. Beekeeper Clay Ford, who owns the Pleasants Valley Honey Company, also known as "Clay's Bees," is devastated.. The fast-moving Vacaville Fire, part of the LNU Lightning Complex fires, claimed 73 of his 81 beehives.. Gone, millions of bees. At an average of 60,000 per hive, that's about 3.9 million bees.
