If you score just under the test-out score on the parent assignment, Mastering does not round up this score. For example, 89.97% will not meet a test-out score of 90%. If you meet the test-out score, you don't need to complete all of the questions in the parent assignment. (To complete a question, you can either submit a correct answer, run out of answer attempts, or choose Give Up.) The ...

In physics, every physical quantity is measured with respect to a unit. Time is measured in seconds, length is measured in meters, and mass is measured in kilograms. Knowing the units of physical quantities will help you solve problems in physics. Part A Gravity causes objects to be attracted to one another. This attraction keeps our feet firmly planted on the ground and causes the moon to ...
