

## THE PSYCHOLOGY OF SELF ESTEEM NATHANIEL BRANDEN

Dec 06, 2020

[The Psychology Of Self Esteem Nathaniel Branden](#)

This major psychological work presents a brilliant new concept of human nature, of mental health and illness, and of the conditions necessary for the achievement of mental well-being. Nathaniel Branden breaks radically with the mainstream of contemporary psychology, challenging and rejecting the basic premises of both psychoanalysis and behaviorism. His book is a revolutionary contribution to man's understanding of himself.

[The Psychology of Self Esteem: Amazon.de: Branden...](#)

Nathaniel Branden reaffirms the basic principles of his self-esteem theory. His revolutionary vision rejects traditional psychoanalysis and behaviourism's view of human nature and defines individuals as being unique and powerful in their ability to conceptualize, use propositional speech, reason explicitly, and become self-aware. The book explores in-depth the need for self-esteem, the nature of that need, the conditions of fulfilment, and how self-esteem (or lack of it) effects our values ...

[The Psychology of Self-Esteem by Nathaniel Branden](#)

The Psychology of Self-Esteem is a book by Nathaniel Branden, first published in 1969. It explains Branden's theories of human psychology, focusing on the role of self-esteem. Most of the book was written during Branden's association with Ayn Rand, and it reflects some of her philosophical ideas. The book's success helped to popularize the idea of self-esteem as an important element of self-improvement.

Nathaniel Branden, Honoring the Self: Self-Esteem and Personal Transformation) The Vital Importance of Self-Esteem. The development of self-esteem is a difficult process, requiring both time and effort, and profound self-examination. Yet it is a struggle well worth the effort. In the modern day too many people judge themselves based on the ...

[On Self-Esteem: Nathaniel Branden](#)

One has to have a strange notion of the concept to equate in self-esteem the trail-blazing scientist or entrepreneur, moved by intellectual self-trust and a passion to discover or achieve, and the terrorist who must sustain his "high self-evaluation" with periodic fixes of torture and murder. To offer both types as instances of "high self-esteem" is to empty the term of any usable meaning.
