The problem of translation has become increasingly central to critical reflections on modernity and its universalizing processes. Approaching translation as a symbolic and material exchange among peoples and civilizations—and not as a purely linguistic or literary matter, the essays in Tokens of Exchange focus on China and its interactions with the West to historicize an economy of translation.

The nineteenth century represents a pivotal moment in global cultural exchange and translation history. Perhaps nothing, however, elucidates the spirit of the age better than the European encounter with Japan, where the incipient sense of boundless possibility is coupled with a profound disorientation. When this long-isolated nation was abruptly and forcibly opened for trade in 1854, the ...

This book analyses the translation strategies employed by journalists when reporting foreign news events to home audiences. Using English-language press coverage of inflammatory comments made by Nicolas Sarkozy in his role as French interior minister in 2005 as a case study, the author illustrates the secondary level of mediation that occurs when news crosses linguistic and cultural borders.
